EDUCATION

SRM Institute of Science and Technology

Chennai, India

B. Tech in Computer Science and Engineering

2023 – 2027

CGPA: 8.75 / 10.00

Relevant Coursework:

Data Structures & Algorithms, Design and Analysis of Algorithms, Operating Systems, Database Management Systems, Computer Networks, Artificial Intelligence, Machine Learning, Probability & Statistics, Computer Organization & Architecture, Linux & Container Technologies

INTERNSHIP EXPERIENCE

Full Stack Developer / DevOps Intern — MK CognitionX Tech LLP

Mar 2026 – Present

Remote | Working on ConsciousX LLC, Connected Spine Care & Mimic (MIT)

- Provisioned and managed AWS EC2 environments using Infrastructure as Code (IaC) principles to host scalable internal microservices.
- Containerized services using Docker ensuring full environment parity across development, staging, and production.
- Performed DevSecOps practices including network packet analysis and vulnerability scanning.
- Designed backend API architecture using FastAPI and REST APIs enabling seamless communication between decoupled microservices.

TECHNICAL SKILLS

Languages: C++, Python, JavaScript, C, SQL.

DevOps & Cloud: Docker, Docker Compose, GitHub Actions (CI/CD), Terraform, Nginx, Linux/Bash, AWS (EC2, S3, IAM, CloudWatch, VPC)

Security: Wireshark, Nmap, Burp Suite, OWASP Top 10, VAPT, Penetration Testing, SQL Injection, XSS/CSRF, Trivy

Full Stack: Next.js 14, React.js, Node.js, FastAPI, Supabase, PostgreSQL, REST APIs

Core CS: DSA, OOP, DBMS, Operating Systems, Computer Networks

PROJECTS

FinTrack — Personal Finance Manager

[Github](#) | 2026

Next.js 14, Node.js, Supabase, Docker, GitHub Actions, Prometheus, Grafana, AWS EC2

- Built a production-grade full-stack finance web app with JWT auth via Supabase, Row Level Security, and dark/light mode.
- Implemented real-time dashboards using Chart.js with doughnut and bar charts for income/expense tracking and budget planning.
- Containerized the entire stack (frontend, backend, monitoring) with Docker Compose and Nginx reverse proxy.
- Deployed to AWS EC2 via a fully automated GitHub Actions CI/CD pipeline: build → Trivy CVE scan → Docker Hub push → SSH deploy.
- Monitored all containers with Prometheus metrics and live Grafana dashboards tracking uptime, request counts, and load.

SafeChat — Real-time Cyberbullying Detection System

[Github](#) | 2025

Python, FastAPI, NLP, React, Docker, AWS EC2, Terraform, GitHub Actions, Nginx

- Built a full-stack real-time chat application with AI-powered cyberbullying detection using a 3-layer pipeline — Hindi/Hinglish keyword filter, Open Router LLaMA API, and TF-IDF + Logistic Regression fallback model.
- Deployed on AWS EC2 using Docker Compose with Nginx load balancing across 2 backend replicas, provisioned via Terraform IaC and automated through a GitHub Actions CI/CD pipeline with Trivy security scanning.
- Achieved 87%+ classification accuracy on English toxic content, with additional rule-based detection for Hindi/Hinglish abusive language not covered by the ML model.
- Implemented DevOps best practices including multi-stage Docker builds, CloudWatch monitoring with CPU alarms, Kubernetes manifests with HPA auto-scaling, and zero-downtime deployments.

AI-Powered Resume Scoring System

[Github](#) | 2024

Python, NLP (TF-IDF), Scikit-Learn, FastAPI

- Built a resume scoring pipeline using TF-IDF, StandardScaler within a ColumnTransformer.
- Achieved 97.1% accuracy ($R^2=0.9708$, MAE=2.44, RMSE=3.83) using RandomForestRegressor.
- Integrated a lightweight FastAPI backend for real-time scoring and structured feedback delivery.

ACHIEVEMENTS

- | | |
|---|-----------------------------|
| • TCS CodeVita Season 13: Global Rank 381 (2025) | <u>Link</u> |
| • 2nd Position — Bajaj FinServ Ideathon, SRM IST (2024) | <u>Link</u> |
| • Certificate of Appreciation — SRM ACM Conclave for proposing 'Smart Toothbrush' IoT concept | <u>Link</u> |
| • Best Project Award — TechKnow 2023-24 for IoT/Robotics innovation | <u>Link</u> |
| • Won Best Project Award at SRM DevOps Expo — April 2026 | <u>Link</u> |

CERTIFICATIONS

- NPTEL: Introduction to Machine Learning — IIT Madras
- AWS: Certified Cloud Practitioner (In Progress)
- Cybersecurity Foundation Course — Google / Coursera
- Ethical Hacking & Cybersecurity-Internshala
